

AIVARA SOLUTIONS

We are a group of young innovators with a quest to address climate-related issues through cutting-edge technology. We are on a mission to protect the environment and develop creative AI-based solutions to complex climate and industry problems. With our focus on water technology, we are currently developing an AI based Real time Water Quality Monitoring System for Municipal and Industrial Applications. This is a one-stop solution to determine all 3 types of analysis - chemical, physical and biological.

Founded in 2021, we are incubated at Science and Technology Park, Pune University.

Shalmali Kadu

Co-founder, Director

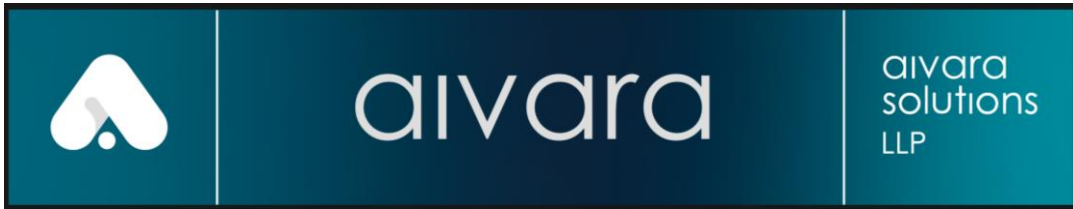

B.Tech in Instrumentation & Control from MKSSS Cummins College of Engineering for Women, Pune.
2020 Graduate.

Medha Moorching

Co-founder, Director

B.Tech in Instrumentation & Control from MKSSS Cummins College of Engineering for Women, Pune.
2020 Graduate.
