Dear Sir/Madam,
Greetings from MKSSS's Cummins College of Engineering for Women, Pune !

We hope you and your family are doing well and are taking the necessary precautions during this pandemic.

We are happy to announce that the MKSSS's Cummins College of Engineering for women, Pune - Computer Society of India (CSI) Student branch is organizing a webinar on "Final year Project- Challenges and Opportunities in New Normal" on 31st August 2020 , 2.30PM-3:30PM

We are privileged to have eminent speaker Mr. Arun Kadikodi, Founder and CEO- Soft Corner, as our guest speaker.

Soft Corner is a software development firm that develops business applications and software products for companies in USA, Scandinavia, Australia and UK, apart from India.

Mr. Arun Kadikoddi did his M.Tech. (Computer Science) from Pune University. He has been in software development from very early days of computing in Pune, with an experience spanning about 40 years. He was also the chairman of Computer Society of India, Pune chapter in early nineties and currently the president of the ACM Pune Professional Chapter.

Final year project is a very cherishable moment that is very close to the heart of every engineering student in their life. Final year project is the platform which provides students enormous opportunities to learn and adopt many technical and non-technical skills. The entire project life cycle provides students a glimpse of best industry practices to be followed during the entire project Life Cycle Development.

Covid -19 pandemic situation is actually a blessing for students because it provides a great opportunity for them to skill, unskill their domain of interests which will be definitely helpful not only during their project days of final year but in their future endeavors also.

**This webinar is open for Final year students of Computer/Information Technology engineering students.**

Please share this information with your Final year students of Computer Engg./IT Departments.

**There is no registration fee.**

**PFA poster of the event.**

**Mode of conduction: Google Meet**

# Guest Lecture on VHDL and Verilog

**Radhika Bhagwat** <radhika.bhagwat@cumminscollege.in> Fri, Sep 6, 2019, 9:50 AM
to tcssgj

Hello,
As per our earlier conversation, the second year (Information Technology) students have a subject named "Digital Systems", where they study Combinational Logic Design and Sequential Logic Design. The students have performed the related assignments on kits, but to give them extra input, I wanted them to know about the programming concepts of Hardware Description Language.

We would be grateful if we could have you as a guest for a lecture session on VHDL and Verilog concepts.

This mail is to confirm the date and time for the guest lecture.
Date: 9th September
Time: 9-10.30 am .

Due to some time constraints we will have to manage the lecture in one and half hour.

Please can you send me your introductory note.

Thanking You.

-Radhika Bhagwat

## CUMMINS COLLEGE OF ENGINEERING

The Cummins College of Engineering for Women was established in 1991. It is an Autonomous Institute affiliated to SPPU. This is the first privately managed engineering college exclusives for girls. It is approved by AICTE. It offers five undergraduate degree programs, three post graduate programs and one Ph.D program in Engineering. The departments of Cummins College of Engineering for Womenare accredited in 1998, 2002, 2006, 2012 and 2016 by National Board of Accreditation.Cummins College is also accredited by NAAC at "A" grade in 2012 and 2017 for next five years.

## ABOUT THE PROGRAM

Java is an Object Oriented Programming language. It is a high-level programming language developed by James Gosling andreleased by Sun Microsystems in 1995. Java runs on a variety of platforms, such as Windows, Mac OS/ and the various versions of UNIX. According to SUN, 3 billion devices run Java. There are many devices where java is currently used. There are mainly 4 types of applications that can be created using java programming-Standalone Application, Web Applications such as irctc.co.in, javatpoint.com etc., Enterprise Applications such as banking applications, Mobile Applications, Embedded System Smart Card Robotics and Games etc.

## PROGRAM OBJECTIVES

1. This workshop primarily aims to expose participants to various facets of programming in Java.
2. It will teach the participant the skills of programming in Java and essentials of Object Oriented Programming.
3. It will focus on the Domain Application, Packages and customizing Eclipse via Java

## RESOURCE PERSON
